#### **BURKE COUNTY NARRATIVE SUMMARY**

The first "mountain county" in North Carolina was created in 1777 and named for Dr. Thomas Burke, a member of the Continental Congress and third governor of North Carolina. At that time, Burke County encompassed a vast amount of land that contained all or part of sixteen future counties that would eventually be carved out of Burke.

Scot-Irish immigrants were among the region's early settlers, and were followed in the late 1800s by the Waldenses settlers, the largest colony of French-speaking Protestants beyond the border of their native Italy. The Waldenses settled the town of Valdese and surrounding areas and made a distinct architectural imprint with their unique houses made of local rock mortared with red clay mud. The county today celebrates and preserves its many historical legacies.

Natural beauty is strength of Burke County. Linville Gorge, one of the most stunning and rugged gorges in the eastern U.S., is formed by Jonas Ridge on the east and Linville Mountain on the west. The gorge's rough terrain, unique rock formations and awe-inspiring foliage that includes endangered species such as Heller's Blazing Star and Mountain Golden Heather, make this natural area both aesthetically spectacular and an outdoor adventurer's paradise.

With elevations averaging 3,400 feet at the rim, the steep walls of the gorge frame the Linville River, known to the Cherokee as "Eeseeoh," meaning "river of many cliffs." The rushing waters of the river coming off its source at Grandfather Mountain enter the Gorge at Linville Falls. Boasting the largest volume of water than any other waterfall found in the northern Blue Ridge Mountains, the 90-foot Linville Falls has both an upper and lower cascade.

In addition to drawing visitors by its history and natural wonders, the supernatural and mysterious "Brown Mountain Lights" have long intrigued native and visitor alike. For years these ghostly lights have appeared at dusk, rising from the summit of the low-lying ridge of Brown Mountain. Early reports of these mysterious lights date as early as 1771, and frontiersmen believed the lights were the spirits of Cherokee and Catawba Indians who were killed in battle. Though investigated by the U.S. government, no explanation has been found for the source of the lights.

Burke County's many attractions have made it an increasingly popular retirement destination. They also draw many tourists. According to the North Carolina Dept. Of Commerce, domestic tourism in Burke County generated an economic impact of \$59,460,000 in 2003. More than 660 jobs were directly attributable to travel and tourism, which generated \$5,310,000 in tax revenues.

#### **OVERARCHING OBJECTIVES**

Burke County's Heritage Council has three overarching objectives for the development of heritage tourism: 1) the preservation and restoration of existing cultural and heritage assets, 2) the careful and thoughtful development of new assets that will enhance both the lives of county residents and visitors, and 3) educational programs and curricula that will help to promote and sustain both of the above.

#### **CHALLENGES**

One of the biggest challenges facing the development of heritage and cultural tourism in Burke County is the abundance of assets already in place, and the number of organizations involved in their operations. The county is already rich in attractions, and there are many dedicated and serious proponents for each cause. The opportunity offered by this challenge is for groups to form partnerships to work together to meet mutually beneficial goals.

Funding for projects and programs remains a challenge as well.

#### PRIORITIES

The initiatives defined by the Burke County Heritage Council fall into three areas of interest:

**Existing Product Enhancement.** The goal of these projects is to either preserve or improve existing assets so they can be more fully used and enjoyed by county residents and visitors. These initiatives include (not in any order of priority):

- Repair work on the Meytre Grist Mill Valdese.
- Expansion and enhancement of public water-based recreation by providing access areas and facilities along or near Lake James and Lake Rhodhiss.
- Expansion of Lake James State Park and the extension of the Lake James Loop Trail.
- Completion of Catawba Meadows Park recreational facilities.
- Completion of the Catawba River Greenway Resource Area that will result in interconnected urban park/pedestrian systems that ties local neighborhoods with schools, parks, recreation facilities, historic sites and commercial areas.
- Enhancement of displays, creation of better access, and completion of the Old Rock School Railway Museum in Valdese.
- Expansion of the annual Red, White & Bluegrass Festival, held July 4<sup>th</sup>, into a premier event in North Carolina.
- Promotion of City of Morganton Municipal Auditorium (CoMMA) to communities beyond Burke County and to establish it as a brand name in quality service in the leisure activities area.
- Updating of Burke County's Architectural Survey, Architectural Sites Inventory, National Register Districts and Properties, and GIS/GPS information concerning Burke County's historic resources.
- Expand services at The History Museum of Burke County with research and collection of materials from past textile and furniture manufacturing companies, construction of exhibits and development of public education programs of regional interest.

**New Product Development**: These initiatives will enhance existing assets and create new growth in the tourism industry:

- Creation of a new Interpretive Center for citizens and visitors to the Overmountain Victory Trail, Lake James State Park and the Pisgah National Forest.
- Investigation of developing an educational program to encourage entrepreneurial options such as viticulture, outfitting and tour guide work in the county.
- Preservation of Henry River Mill Village and development of a mixed use of the property including housing, art studios and recreational opportunities.
- Creation of a "Sculpture Walk," a walking/driving public art pathway that will connect high visibility tourist attractions in Morganton, including the Ben Long fresco, historic downtown, Historic Burke Museum, and the Cultural Arts District.
- Development of a Community Theater and dramas focused on the history and heritage of Burke Co.
- Development of a documentary film on the archeological excavation of the Berry Site, to be used to promote regional tourism and interest in this landmark discovery.

**Education:** The following initiatives address the need for education at a number of levels that will enhance and promote historic and cultural preservation and heritage tourism:

- Expansion of economic opportunities for area crafts people through an educational program to teach basic and advanced business and marketing skills, which in turn would increase their sales, stimulates economic growth in the county, and enhances Burke Co. as an attractive tourist destination.
- Creation of an Experiential Art Gallery at Western Piedmont Community College to provide a forum for students, community members, and others to meet, view and discuss art, artistic development and associated topics.
- Continuing involvement of educators and students from WPCC in the study and preservation of the cultural heritage within its service region, and the development of a Service Learning educational program wherein students would have the opportunity to receive some academic credit by doing volunteer service with heritage and cultural organizations.
- Creation of a program at Rock School to provide art education to rural and mountain communities in Burke Co.
- Production of history plays, beginning with "The Legend of Frankie Silver," that will educate and entertain students, community members and tourists.
- Promote the recently renovated 1912 Morganton Railways Station, along with its exhibits of Western North Carolina Railroad, as a key tourism attraction.
- Develop the West Meeting/South King Street "Cultural Block" and "The Commons" as an economic development district to enhance community services of the Public Library, Burke Arts Council and History Museum.
- Production of "Thunder Over Table Rock," an historical drama that depicts the arrival of 16<sup>th</sup> century Spaniards among Indians of the upper Catawba River Valley, the first inland European settlement within the United States some 40 years earlier than James Town, Virginia, and 20 years before the "Lost Colony."

#### CONCLUSION

Burke County has a large inventory of cultural and natural assets to support heritage tourism in the county, many creative and viable plans for future assets, and a committed, active community of partners in support of these initiatives.

#### BURKE COUNTY SUMMARY CHART

| Initiative Name   | Estimated Costs    |
|---|--------------------|
| Access Initiative   | Not yet determined |
| Bluegrass Festival (Red, White & Bluegrass 4th of July<br>Festival)                         | \$50,000           |
| Burke Arts Council Annual NC Symphony Concert & Art<br>Festival at Lake James<br>(New 2006) | \$60,000           |
| Enhanced Services at The History Museum of Burke County,<br>Inc.<br>(Revised 2006)          | \$1,000,000        |
| Catawba Meadows Park  | \$4,500,000        |
| Catawba River Greenway Resource Area  | \$7,850,000        |
| City of Morganton CoMMA Marketing   | \$1,000,000        |
| Frankie Foundation/Community Theater<br>(Revised 2006)                                      | \$1,088,000        |
| Frankie Foundation/Historic Dramas/Initial Production<br>(Revised 2006)                     | \$65,000           |
| Henry River Mill Village  | \$5,000,000        |
| Historic Burke Publication & Information Updates  | \$80,000           |
| Jonesboro Community Initiative  | \$150,000          |
| Lake James Loop Trail   | \$15,000,000       |
| Lake James State Park Expansion   | COMPLETE           |
| Meytre Grist Mill Project   | \$8,000            |
| North Carolina School for the Deaf Initiative   | \$10,000           |

| Overmountain Victory Trail   | \$1,000,000        |
|--|--------------------|
| Overmountain Victory Trail Interpretive Center                                     | Not yet determined |

| Expanding Economic Opportunities for Area Crafts People                            | \$100,000          |
| GRAND TOTAL  | \$6,339,510        |

| Initiative Title: Access Area Initiative |   |  |
|--|---|--|
|  |   |  |
| Project                                  | The Access Area Initiative will be facilitated through the FERC relicensing process   |  |
| Narrative:                               | of the hydropower facilities owned by Duke Power Company in Burke County on           |  |
|  | Lake James and Lake Rhodhiss. Recreation use and needs will be assessed and           |  |
|  | provision of new facilities (and maintenance for those facilities) will be negotiated |  |
|  | through a partnership agreement.  |  |

# Goal: Expand and enhance water-based recreation opportunities for the general public by providing access areas and facilities at strategic locations along or near project waters. This will be included as terms for the new license Duke Power will receive from the federal government to conduct their hydropower operations utilizing public water resources.

| Person/Organization Responsible: | Cost to Implement: | Estimated Time to Complete: |
|----------------------------------|--------------------|-----------------------------|
| Duke Power Company, Federal      | Not yet determined | 5-12 years                  |
| Energy Regulatory Commission,    |                    |                             |
| NC Wildlife Resources            |                    |                             |
| Commission, local governments,   |                    |                             |
| private entities                 |                    |                             |

| Action Items:                              | Resources Required:  | Who's Responsible:   |
|--|----------------------|----------------------|
| Generate list of needed facilities and     | Recreation Use &     | Duke Power Company   |
| improvements at appropriate locations,     | Needs Study, license | and willing partners |
| agreement regarding responsibilities and   | terms agreement      |                      |

|         | development   |

## INITIATIVE WORKSHEET Initiative Title: RED WHITE & BLUEGRASS FESTIVAL (4<sup>TH</sup> OF JULY)

| _          |  |
|------------|--|
| Project    | This festival takes you back in time to enjoy festivities such as greased pole         |
| Narrative: | climbing, frog jumping, and watermelon-eating. Top it off with live                    |
|            | bluegrass/country music and a spectacular fireworks show on the Fourth of July. The    |
|            |  |
|            | event is held at the Collett Street Recreation Grounds in Downtown Morganton. On       |
|            | the Saturday prior to the Fourth of July on the Catawba River Greenway                 |
|            | "Riverstage" bluegrass artists will perform and kids can attend a bluegrass camp and   |
|            | perform live on "Riverstage".  |
|            | perform rive on Kiverstage .   |
|            |  |
|            | Currently the Red White and Bluegrass Festival is entering its second year in the      |
|            | current format which includes the Bluegrass Camp for Kids and their showcase           |
|            | concert on the RiverStage. "Pickin' on the Greenway" is a full day of music, food,     |
|            | and fun on the Saturday leading into the July 4. This is usually followed by another   |
|            |  |
|            | headline bluegrass act on the RiverStage. The festival culminates on the Fourth of     |
|            | July with the traditional games beginning mid-afternoon followed by up to three        |
|            | major bluegrass artist groups performing on the Collett Street stage leading up to the |
|            | fireworks.   |
|            |  |
|            | There is no charge to audience or participants.  |

To establish the Red White and Bluegrass Festival as a prima event in North Carolina, Goal: and to seek sponsorship to create quality expansion of the project.

| Person/Organization Responsible:  | Cost to Implement:    | Estimated Time to Complete: |
|-----------------------------------|-----------------------|-----------------------------|
| Gary Leonhardt, City of Morganton | \$ 35,000 - \$ 50,000 | In progress                 |
| Recreation Director               |                       |                             |

| Action Items:                             | Resources Required: | Who's Responsible:    |
|---|---------------------|-----------------------|
| Identify and secure sponsors and partners | Formal Organization | City of Morganton     |
|   | and Funding         | Recreation Department |

| Performance Measures: | <ul> <li>Maintain high level of program and artist performance;</li> </ul> |
|-----------------------|--|
|                       | • Evaluate audience participation and response;                            |
|                       | • Consider levels of funding necessary for growth.                         |

| Status: | 2008 - The successful project is going into its 6 <sup>th</sup> year and in on-going. Cost is \$100, 00. Data is needed on number attending, economic impact. Methods to |
|---------|--|
|         | track are in development.  |

#### Project The History Museum of Burke County, Inc. was established in 2003 to promote the Narrative: collection, preservation, educational interpretation and display of our heritage. With a current paid membership of over 400 individuals and sponsors, the History Museum's 2004 Action Plan focused on obtaining a short-term lease from County Commissioners for a portion of the old Morganton City Hall. Other parts of the plan, not vet completed, include a computerized Past Perfect inventory system for collections, construction of exhibits, hiring an executive director and creating an endowment fund. Completed objectives include a QuickBooks accounting system, fundraising feasibility study, Business Plan and economic impact report. In 2005, the Phifer/Johnson Foundation of Spartanburg awarded a \$500,000 challenge grant and the History Museum joined with the Burke Arts Council, Burke County Library and Morganton Main Street to promote a joint venture with the city and county to develop a cultural block on West Meeting and King streets. The History Museum receives advise and support from Gateway Mountain Heritage Museum in Old Fort, N.C. Museums Council, Friends of Mountain History and Museums In Partnership (15 counties of western N.C.) The museum recently obtained a lease at the newly renovated 1912 Morganton Railway Station where exhibits and artifacts on display depict the 19th century N.C. Western Rail Road.

#### INITIATIVE WORKSHEET

Enhanced Services at The History Museum of Burke County, Inc.

Initiative Title:

Goal: To conduct research, collect and preserve local textile and furniture history; renovate and construct exhibits; develop public education programs. Achieving this goal is directly related to a funds match for the Phifer/Johnson challenge grant.

| INITIATIVE WORKSHEET  |  |  |  |
|-----------------------|--|--|--|
| Initiative Titl       | Initiative Title: Catawba Meadows Park   |  |  |
|                       |  |  |  |
| Project<br>Narrative: | Catawba Meadows is a beautifully arranged 230-acre recreation park located within the Catawba River Greenway Resource Area. It is situated along the             |  |  |
| Inallative.           | southern bank of the Catawba River. Catawba Meadows, currently under<br>construction, offers Morganton and Western North Carolina a unique blend of              |  |  |
|                       | active and passive recreational opportunities including a premier baseball & softball complex, biking, hiking, boating, fishing, nature observance. The park     |  |  |
|                       | will eventually include RV, cabin & primitive camping facilities, corporate size picnic areas, mountain biking, lawn bowling, tennis, and many other activities. |  |  |
|                       | The Catawba River Greenway traverses the park and provides pedestrian access   |  |  |
|                       | to many other sports and recreation facilities including the Catawba River Soccer<br>Complex and soon Freedom Park. Catawba Meadows also has direct pedestrian   |  |  |
|                       | trail access to shopping areas, restaurants, schools, industry and residential areas   |  |  |
|                       | via the Greenway. It is also just across the street from a state of the art indoor   |  |  |
|                       | pool facility and an indoor Recreation Center.   |  |  |

Goal: Catawba Meadows is an integral piece of Morganton's Economic Recovery Plan to utilize recreation and eco-tourism as integral component to revive its local economy. Catawba Meadows will draw hundreds of thousands of visitors each year by offering a unique blend of recreation facilities and activities. We believe our interconnected recreation attractions will be a huge success for Morganton, and not compete with private non-profit and commercial recreation in the area.

| 6) Phase 6 (Lrg. Picnic Areas)        | \$ 175,000          |                    |
| 7) Phase 7 (Disc Golf/Tennis/L. Bowl) | \$ 250,000          |                    |
| 8) Phase 8 (Archaeology Lab/Museum)   | \$ 500,000          |                    |

| Performance Measures: | Tourism increases, Increase hotel occupancies, Increase      |  |
|-----------------------|--|--|
|                       | sales tax revenues, Increased private business opportunities |  |
|                       |  |  |

| Status: | 2008 – The largest city park in WNC, the complex includes a wide variety of   |
|---------|---|
|         | facilities and focuses on amateur baseball and softball facilities. Completed |
|         | amenities include greenway access, river overlook, and greenway trail of 2.5  |
|         | miles, parking lots, a youth baseball complex and softball/baseball complex.  |
|         | The City was approached by a local sports promoter with the idea of using the |

| 230 acre planned park as a regional and national amateur baseball and softball<br>event facility. The promoter presented a business plan to explain how amateur<br>athletics could bring people and dollars to the area.   |
|--|
| In April 2004, Phase 1, five little league fields were opened and the first regional tournament event brought 93 baseball teams to the area. In spring 2007, Phase 2 was opened with four softball/baseball fields. Traveling Amateur Athletics is now big business. The Catawba meadow project is modeled after similar facilities that have brought large number of tourists and significant economic impact to the area. http://www.ci.morganton.nc.us/html/pr-cmp.html |

| Initiative Ti | iative Title: Catawba River Greenway Resource Area                                 |   |
|---------------|--|---|
|               |  |   |
| Project       | The Catawba River O  | Greenway Resource Area is a combination of permanently          |
| Narrative:    | dedicated linear trail   | system and adjoining recreational parks. It presently           |
|               | encompasses nearly 5 miles of riverfront along the beautiful Catawba River in      |   |
|               | Morganton, NC. The area attracts over 200,000 visitors a year. It provides a safe  |   |
|               | and natural family outdoor recreation experience for walkers, runners, bicyclist,  |   |
|               | canoeist, fishermen and nature observers. The area also offers unique shopping and |   |
|               | dining experiences al  | long its length. Interesting educational elements are scattered |
|               | throughout the area t  | hat provide ecological and historical information. The          |
|               | Catawba River Green  | nway Trail is an official segment of the Overmountain Victory   |
|               | National Historic Tra  | ail. In the near future, the trail system will link with other  |
|               | existing City recreati   | on facilities, schools, commercial areas and residential areas. |

GoalTo provide an interconnected urban park/pedestrian system that ties local neighborhoods:with schools, parks, recreation facilities, historic sites and commercial areas.

| 2. Ctwba R. Greenway Section 2           | \$ 850,000          |                    |
| (2.6miles)                               | \$2,000,000         |                    |
| 3. Freedom Trail (0.6 miles)             | \$1,500,000         |                    |
| 4. Warrior Fork Greenway (1.75 miles)    | \$2,000,000         |                    |
| 5. Ctwba R. Greenway Section 3 (2 miles) |                     |                    |
| 6. Silver Creek Greenway (2 miles)       |                     |                    |

Performance Measures:Increased Tourism, Increased Hotel Stays, Increased Sales Tax<br/>Revenues, Increased development activities

| Status: | 2008 - The Morganton Greenway System offers year-round biking, jogging, strolling,      |
|---------|---|
|         | and picnicking. It includes both the Catawba River Greenway and the Freedom Trail       |
|         | Greenway and currently has five pedestrian access points with parking. The Catawba      |
|         | River Greenway offers a total of 3.8 miles of paved, fully accessible walking trail. It |
|         | runs along the River from Rocky Ford Access off Lenoir Rd/NC 18N to the Greenlee        |
|         | Ford Access located off Greenlee Ford Road. Along the trail are picnic shelters, open   |
|         | tables, ADA compliant rest rooms, and a playground, fishing piers, canoe launches, a    |
|         | gazebo, observation decks and pedestrian bridge. Freedom Trail connects Freedom         |
|         | Park and Freedom High to the Catawba River Greenway and extends .6 mile.                |
|         | Approximately 17,000 people use the Catawba River Greenway each month.                  |
|         | Morganton 20/30 Task Force has suggested that development of accommodations and         |
|         | renewed marketing efforts can greatly enhance the already significant sustainable       |
|         | economic development provided by the Morganton Greenway System.                         |

| Laidiadiana Tit       | City of Monsonton Municipal Auditorium (CoMMA) Monketing  |
|-----------------------|---|
| Initiative Titl       | le: City of Morganton Municipal Auditorium (CoMMA) Marketing  |
| Project<br>Narrative: | In the early 1980's, the City of Morganton Municipal Auditorium was the vision of<br>the Morganton City Council and Citizens of Morganton. A bond referendum was<br>passed, and in November of 1986, CoMMA opened its doors with a grand opening<br>month of performances highlighted by the hit Broadway musical "The Tap Dance<br>Kid."   |
|                       | Since that time CoMMA has established itself not only as the primary public<br>assembly facility in Burke County but also as a signature of quality performance in<br>North Carolina and beyond. In addition to Broadway tours, CoMMA, along with<br>its season series, MainStage Morganton, hosts top name performing artists'<br>concerts, public meetings, gospel singings, talent shows, dance recitals, graduations,<br>local non-profit fundraisers, receptions, and dinners. The main gallery features six<br>to eight visual art displays annually. To date more than 2,700 public and private<br>events have been held or staged at CoMMA. |
|                       | In addition to presenting tour events, CoMMA was the site of the world premiere of "Senator Sam – A One Man Play," in 2001. Most recently public funding was raised to pay the cost of commissioning international artist Benjamin F. Long to create an original fresco on CoMMA's main gallery ceiling. The project was completed in April of 2004 and will serve as a landmark in the city and state as well as a potential tool for economic development.  |
|                       | As CoMMA approaches twenty years of performance service to the Morganton and<br>Burke community, it is evident that citizens expect and appreciate the quality of life<br>enhancement that the theatre offers and provides. The City Council and the City<br>itself deems CoMMA to be an important and influential factor as we enter this new<br>millennium. Council's support and encouragement are evident via the successes<br>CoMMA has attained. CoMMA will most assuredly be a centerpiece and landmark<br>for the City as the arts and culture are incorporated into the planned growth and<br>development of the area.                     |
| C                     | OMMA is striving to seek new ways to market to communities beyond the Burke<br>ounty border, and to establish itself as a brand of quality service in the leisure   |

activities area. Creating and/or finding the niche that will attract patrons and customers is a delicate and lofty aspiration but achievable through realistic as well as creative planning and execution.

| INITIATIVE WORKSHEET |   |  |
|----------------------|---|--|
| Initiative Ti        | tle: The Frankie Foundation/Community Theater   |  |
|                      |   |  |
| Project              | Morganton NC, with a population of about 15,000, has had no community theatre         |  |
| Narrative:           | until now. The Board of Directors of the Frankie Foundation is in process of          |  |
|                      | developing an historical drama program and planning for an appropriate                |  |
|                      | performance venue.  |  |
|                      | Morganton is in a beautiful setting in the shadow of Table Rock Mountain. The         |  |
|                      | new theatre will draw in additional tourists to the area and will provide needed      |  |
|                      | indoor recreation to add to the good fishing and majestic scenery found outside.      |  |
|                      | The new theatre will specialize in the production of history plays. The plays will    |  |
|                      | enhance the social studies classes of area schools, hopefully creating a fascination  |  |
|                      | with local history among students. Plans call for the theater to take scenes from the |  |
|                      | plays into schools and offer discounts to students and their families to come to see  |  |
|                      | the complete plays in the theatre. Adults will gain a greater appreciation for their  |  |
|                      | heritage and history with enjoyable dramatic experiences.                             |  |

Goal: Create a new community theater in which to perform educational, entertaining dramas about area history and heritage.

| Person/Organization Responsible: | Cost to Implement: | Estimated Time to Complete: |

Project Narrative: The Henry River Mill Village is a turn-of-the-century collection of homes and commercial buildings that comprise a rare example of an intact mill village. It is on the National Historic Register Study List and is located on the banks of the Henry River in eastern Burke County. The original hydropower dam, erected to generate power for the mill is also intact and is still in working order. This collection of historic buildings, all currently vacant has remained unsubdivided (approx. 65 acres) and is still owned by a single property owner with historic ties to the mill. The possibilities for the village are extensive and could include a mixed use traditional style settlement or an arts community complete with individual artist studios and a retail facility to market them in. River access for recreation could also be incorporated into a creative concept plan.

| Goal: | To preserve an authentic, intact, and historic mill village for a variety of uses |
|-------|---|
|       | including a mix of housing types, art studios, and recreational opportunities.    |

| Initiative Title: | Historic Burke Publication and Information Update of Burke County          |  |
|-------------------|--|--|
|                   | Architectural Survey, Burke County Architectural Sites Inventory, National |  |
|                   | Register Districts and Properties, and GIS/GPS information of Burke County |  |
|                   | Historic Resources   |  |

| Project<br>Narrative: | One of the outstanding features of Burke County is its wealth of historic buildings.<br>Countless visitors have commented on the history embodied in the architecture of<br>Morganton and the county's surrounding towns. Preservation of this built<br>environment is a continuing tourism resource bringing visitors to Burke County.<br>This initiative proposes an update of the Burke County architectural sites survey,<br>sites inventory, National Register Districts and Properties, and GIS/GPS information<br>culminating in re-publication and updating of the 18 year-old architectural book. The<br>purposes of a new survey and publication are to aid in future historic and heritage<br>planning, preservation, and public education. Historic sites not previously listed will<br>be documented, historic resources that have been demolished will be noted, and<br>eligible properties identified. Potential expansion or inclusion of sites in new historic<br>districts will be studied. A long-range benefit will be the increased use of restoration<br>tax-credit incentives in Burke County ultimately supplementing the county's tax base.<br>Updating this information will allow identification of historic resources allowing for<br>sensitive commercial and private development in Burke County, retaining those<br>assets that make Burke County a tourism and retirement draw. |
|-----------------------|---|
|                       | In 1987 Historic Burke Foundation published <i>Historic Burke: An Architectural Sites</i><br><i>Inventory of Burke County.</i> The publication, based on J. Randall Cotton's 1983-84<br>survey, resulted in the designation of nine National Register Historic Districts in<br>Morganton, 28 National Register designated properties, and the formation of the<br>Historic Preservation Commission. Managed by Historic Burke Foundation and now<br>out of print, this publication is one of the most requested from Historic Burke<br>Foundation and Burke County Travel and Tourism Visitor's Center.<br>Since 1987, much has happened to Burke County's architectural past and new eras of<br>architectural style have become part of the historic landscape. The original survey  |
|                       | included buildings through the 1920s. However, at this writing the fifty-year bench-<br>mark is encompassing buildings ca. 1955. These 1930-1955 buildings are fast<br>disappearing from the Burke County landscape. Addition of GIS/GPS information to<br>the update will allow city and county planning departments to identify potential<br>development in areas of historical and architectural importance and aid in sensitive<br>development around these resources.  |

Goal: Update the current Burke County architectural survey, identifying National Register eligible buildings, including GIS/GPS mapping for county planning purposes and publish an updated edition of *Historic Burke: An Architectural Sites Inventory of Burke County*. Additionally work toward developing a full-time staff position devoted solely to historic preservation needs within the county, protecting historic properties as economic development tools and promoting education and preservation of the county's heritage.

|         | certified by National Park Service as part of the Overmountain Victory Trail. |

| Initiative Title: Lake James State Park Expansion |  |
|---|--|
|---|--|

Project Narrative: Addition of approximately 3000 acres to the existing 605-acre Lake James State Park and the provision of a wide range of water and land based recreation opportunities for the general public. Activities will include picnicking, camping, trails (including Overmountain Victory National Historic Trail), beach areas, fishing sites, motorized and non-motorized boat access, and a full-service visitors center. Also involved in the expansion will be a 125-acre parcel including a privately operated lodge and meeting facility site. This lodge will have restaurant facilities, meeting rooms, and out-cabins.

| Goal: | To provide a regional recreation resource for citizens and visitors that will provide an |
|-------|--|
|       | economic stimulus for Burke County and the City of Morganton.                            |

|                       | plan for park facilities and lodge site                |

| Status: | Lake James State park expanded six times its size of 650 acres in August      |
|---------|---|
|         | 2004. In an agreement with Crescent Resources and the state 2, 915 acres      |
|         | were added. The state purchased using NC Clean Water Management Trust         |
|         | Fund, the Parks and Recreation Trust Fund, and tax credits for the seller.    |
|         | The park expansion, was part of the vision agreed upon among Crescent         |
|         | Resources,  |
|         | Citizens to Save Lake James, the Burke County Commissioners, the Foothills    |
|         | Conservancy, the Lake James Environmental Associations and numerous           |
|         | other groups included in the Lake James Task Force for the future for Lake    |
|         | James.  |
|         | The property was purchased by the state using money available in the NC       |
|         | Clean Water Management Trust Fund, the Parks and Recreation Trust Fund,       |
|         | and tax credits for seller. A master plan for expansion of the park was       |
|         | completed in 2005 and information about the plan is found at                  |
|         | http://www.ncparks.gov/About/plans/master/main.php                            |
|         |   |
|         | 2008 – The total cost of the first development phase was estimated at \$7.6   |
|         | million. Construction was to begin mid-2007. A two mile, paved entrance       |
|         | road will lead to a facilities complex that will ultimately include a visitor |
|         | center, community building, swim beach area, maintenance compound. picnic     |
|         | grounds, boating and fishing access and separate campgrounds for RVs and      |

| trailers, for tent camping and for group camping. The master plan also calls<br>for primitive, "hike-in" campsites as well as boat-in campsites on the Long<br>Arm peninsula. In addition, the plan calls for 14 vacation cabins near the<br>center of the facilities complex. |
|--|
|  |

Project Narrative: The original Meytre Grist Mill, located on McGalliard Creek in Valdese, was destroyed in the 1916 flood. The mill, located beside the scenic water falls on the creek, was an integral part of the lives of the Waldensian settlers who came to Valdese in the late 1800s from northern Italy. The mill was rebuilt on its old foundation in the early 1980s. Work is needed now to get the grist mill in good working condition so it can be used for demonstrations at special events during the year. Some landscaping work is also needed to make the mill more accessible to visitors. Recent articles in Our State Magazine and other publications about McGalliard Falls and Meytre Grist Mill have brought a lot of attention to the area and have raised the priority for making these improvements.

| Goal: | The Town of Valdese recently created a Department of Tourism that is promoting the  |
|-------|---|
|       | town's Waldensian heritage and attractions for day trips. The Meytre Grist Mill and |
|       | McGalliard Falls Park are a vital part of that effort.                              |

|                       | have it be incorporated into future Hunting Creek         |
|                       | Greenway project.   |

| Status: | Landscape design is underway. Campus executive management team has           |
|---------|--|
|         | endorsed the concept of tour, volunteers actively working on museum project; |
|         | narrative of school history has been prepared and printed. 2008 Project has  |
|         | not been completed.  |

| Initiative Title: Establish and Maintain Overmountain Victory National Historic Trail |   |  |
|---|---|--|
|   |   |  |
| Project   | The Overmountain Victory National Historic Trail was authorized by the U.S.   |  |
| Narrative:  | Congress in September 1980 and commemorates the campaign that led to American   |  |
|   | victory at the Revolutionary War battle of Kings Mountain in the fall of 1780.  |  |
|   | Administered by the National Park Service the Trail is established and maintained through a variety of different partnerships. It consists of a Commemorative Motor Route, which uses existing state highways, as well as a non-motorized route. The latter is still being developed, but will eventually stretch some 330 miles through four different states.         |  |
|   | Within North Carolina there are 204 miles of the Commemorative Motor Route, as well as potentially 201 miles of the non-motorized trail. The trail passes through nine counties in North Carolina, all of which are included in the BRNHA. As of December 2004, 34 miles of the non-motorized route within the state had been established and were publicly accessible. |  |
|   |   |  |
|   |   |  |

## Goal: Mark all 204 miles of the Commemorative Motor Route in North Carolina, as well as establish and mark all 201 miles of the non-motorized route within the state. Proper interpretive waysides and exhibits, as well as special events connected to the Trail story, will also be developed and maintained.

| Person/Organization Responsible: | Cost to Implement:   | Estimated Time to Complete: |

### INITIATIVE WORKSHEET Initiative Title: Overmountain Victory Trail Interpretive Center

| Initiative T          | tle: Overmountain Victory Trail Interpretive Center  |  |
|-----------------------|--|--|
|                       |  |  |
| Project<br>Narrative: | A five-acre parcel is being conveyed by Crescent Resources to Lake James State<br>Park, which will partner with the National Park Service to provide an Interpretive<br>Center and possible Overmountain Victory Trail Headquarters. The parcel is<br>uniquely positioned along the original route taken by the Overmountain men on<br>Paddy Creek between their homesteads in the Blue Ridge Mountains and the ultima<br>battlefields at Cowpens and Kings Mountain. The parcel is also adjacent to the<br>recently expanded Lake James State Park and will serve as a gateway to this park ar<br>the Pisgah National Forest. |  |

| Goal: | To provide experiential education space for citizens and visitors using the Overmountain |

|----------------------|---|--|--|
| Initiative Title: R  | Rock School Art Teacher's Wage Initiative and Free Tuition for 4 Students |  |  |

#### 

| Project<br>Narrative:The Rock School Arts Foundation offers Art Classes at the Old Rock School<br>children in Burke County. A high priority for the Foundation is to offer Art<br>Education, foster opportunity for children of families whose income is lower<br>national average, and for children of the region's ethnic minority families. Th<br>town's minority population consists of 9.3% Asian (mostly Hmong), 5.2% Hi<br>3.9% multi-racial and an unknown number of Italian Waldensians. The Hmo<br>population continues its tradition of making handmade embroidered textiles a<br>be targeted to participate in the art classes. The Teacher's Wage Initiative we<br>an art teacher 6 hrs per week @\$20 per hr for 7 months and pay for free tuition<br>students at \$15 per month. |  |   |   |  |
|---|--|---|---|--|
| Goal: The goal of the Rock School Arts Foundation in the Historic Rock School is to p   |  |   |   |  |
|   | Art Education to the rural and moun the third populations within the National 1  |   |   |  |

|-----------------------|---|--|--|
| Status:               | Classes are currently being taught with one part time paid teacher and one<br>volunteer teacher from the RSAF Board. The RSAF needs the capacity to pay<br>teacher for all class time and the ability to offer free tuition to children of low<br>income and ethnic families. 2008 Project is ON HOLD per E. Furr |  |  |

| Initiative T          | Fitle:         Rock School Railway Museum, Valdese, NC   |  |  |  |
|-----------------------|--|--|--|--|
| Project<br>Narrative: | Since the Burke County arrival of the first Waldenses in 1893 aboard a train, the railroad has played a pivotal role in the history of Valdese, NC. The Old Rock School Railway Museum's mission is to preserve and present the history of railroad operations in western North Carolina through the use of art, photographs, static exhibits, and interactive displays. Owned by the Town of Valdese, the Old Rock School Railway Museum is being developed and operated as a volunteer project by a 17-year old club of area railroad enthusiasts. |  |  |  |

| Goal: Grant funding would greatly expand the range and quality of museum displays, provide for greater access by visitors with special needs, and expedite the completion of the museum which has to date been solely funded by private donations.   |  |  |  |   |  |
|--|--|--|--|---|--|

| Initiative Title: | WPCC Experiential Art Gallery |
|-------------------|-------------------------------|
|-------------------|-------------------------------|

Project Narrative: As a part of its educational and cultural activities, the Western Piedmont Community College (WPCC) Library will exhibit artworks by students, faculty, local, and regional artists. Activities planned for the gallery include viewing of art works by individuals, instructional presentations, and other didactic sessions. Currently, the gallery planning committee is estimating eight art shows each year. Exhibits will be displayed for the benefit of the campus community and the public. A calendar of exhibits will be advertised to the community and in state tourism publications. The gallery planning committee has already procured structural plans for the gallery and is currently collecting estimates for the necessary work.

# Goal: The Experiential Art Gallery will provide a forum for students, community members, and others to meet, view, and discuss art, artistic development, and associated topics. Displays will be viewed as a means of communication that can stimulate thinking, creativity, and aesthetic learning. In addition, the gallery will be an advocacy tool for the value of arts in education.

Initiative Title: WPCC Hospitality Program Planning

Project<br/>Narrative:Western Piedmont Community College (WPCC) proposes to develop and implement<br/>a series of courses through the Continuing Education Division to train hospitality<br/>workers in Burke County. Continuing Education courses could cover a variety of<br/>topics associated with the hospitality industry including front office management,<br/>food preparation, guest services, sanitation, menu writing, quality management,<br/>purchasing, and other practical skills necessary for the successful day-to-day<br/>operations of a service business. Currently, WPCC has no faculty with an expertise<br/>in the hospitality industry; therefore, a consultant will facilitate the development of<br/>the program. With the growth of the travel and tourism industry in Burke County,<br/>hospitality professionals will become a necessity. Students participating in the<br/>courses will work in hotels, motels, resorts, inns, restaurants, clubs, recreational<br/>facilities, and other tourist and travel related venues.

Goal: The goal of this project is to create and implement a Continuing Education program of study to train a wide variety of hospitality workers for Burke County.

| Initiative Title: | WPCC Outfitter Entrepreneurial Program |  |
|-------------------|--|--|
|                   |  |  |

Project Narrative: Western Piedmont Community College (WPCC) proposes to develop and implement a series of courses through the Continuing Education Division to train people as activity leaders. Some examples include courses in becoming a guide for fly fishing, rock climbing, biking, hiking, canoeing, kayaking, horseback tours, as well as training umpires for various sports activities. Interested people would take two types of courses: one to learn about the activity they wish to lead, and the other to learn business and marketing practices. With the plethora of outdoor opportunities in Burke County, there is a niche for people willing to operate as tour guides. The development of the Lake James State Park will create demand for people who can provide outfitter services. Encouraging travel and tourism of people interested in outdoor sports has the advantage of keeping Burke County's environment pristine while growing the economy.

Goal: The goal of the training tourist activity entrepreneurs project is to create and implement a Continuing Education program to train people to provide a wide variety of outdoor tourist activities in Burke County.

| Initiative Title: WPCC Berry Site Documentary |   |          |
|---|---|----------|
|   |   |          |
| Project                                       | The goal of this project is to produce a heritage film to both document the           |          |
| Narrative:                                    | extraordinary discoveries at the Berry archaeological site over the last twenty years | <b>.</b> |
|   | This large Mississippian site is believed to represent an ancestral Catawba Indian    |          |
|   | town dating to the sixteenth century. For the past four summers, Dr. David Moore      |          |
|   | and the Warren Wilson/WPCC Archaeology Field School have excavated at the             |          |
|   | Berry site and investigated four burned buildings believed to be the remains of a     |          |
|   | Spanish compound, Fort San Juan, built by Spanish explorer Juan Pardo in 1567.        |          |
|   | For years scholars have debated Pardo's exploratory route and the location of a fort  | t        |
|   | he constructed. Dr. Moore believes the Berry site holds the answers to this           |          |
|   | historical and archaeological puzzle. This documentary film will be used to           |          |
|   | promote regional tourism and interest in this landmark discovery.                     |          |
|   |   |          |

Goal: To provide a heritage film for educational purposes and to promote tourism to Burke County.

|                   |                                |

| Project    | Housed in the Phifer Learning Resources Center Library on the Western Piedmont      |  |  |  |  |  |  |
|------------|---|--|--|--|--|--|--|
| Narrative: | Community College campus, the Senator Sam J. Ervin, Jr. Library and Museum          |  |  |  |  |  |  |
|            | includes books, correspondence, photos, documents, professional and family          |  |  |  |  |  |  |
|            | memorabilia, and original political cartoons from the Watergate era, awards, and    |  |  |  |  |  |  |
|            | other materials collected by Senator Ervin during his many years of public service. |  |  |  |  |  |  |
|            | The goal of the Library/Museum is to provide scholars and students with a wide      |  |  |  |  |  |  |
|            | range of resource information concerning the life of Senator Ervin, the United      |  |  |  |  |  |  |
|            | States Constitution, Constitutional and political history with emphasis on the      |  |  |  |  |  |  |
|            | Watergate era, and U.S. and North Carolina legal and general history.               |  |  |  |  |  |  |
|            | WPCC proposes to produce a DVD featuring photos, slides, and archived film          |  |  |  |  |  |  |
|            | footage of some of Senator Ervin's speeches. The DVD would play on command          |  |  |  |  |  |  |
|            | at a specialized viewing station for visitors to the Library/Museum. This project   |  |  |  |  |  |  |
|            |   |  |  |  |  |  |  |
|            | will enhance the experience of visitors to the Sam Ervin Library and allow them to  |  |  |  |  |  |  |
|            | view materials otherwise unavailable to the general public.                         |  |  |  |  |  |  |

Goal: To create a DVD of archived photographs, slides, and film footage of Senator Sam Ervin for the public to view while visiting the Library/Museum.

| Person/Organization Responsible:            | Cost to Implement: | Estimated Time to |  |
